JOB WORK

Facilities for Plain and Fancy Job Printing Not Excelled West of the Missouri River.

The Honorable J. B. Hares [illegible] United States district attorney in Mississippi, was one of the conspirators who prevented the negroes from voting in the recent election at Jackson. Miss. Fearing removal from office he has sent his resignation to President Cleveland. This does not look as though the south placed much reliance on Cleveland's sympathy for their election methods.

The usual observance was premature, but that there is more drinking in this country than is good for the people, yet the assertion that the country is fast or worse than most of the countries of Europe is not borne out by statistics. According to the report of a Swiss statistician, it is shown that the consumption of spirits per capita is 9.8-10 in Russia, 9.4-10 in Switzerland, 8.6-10 in Germany, 7.2-10 in France, 5.2-10 in Great Britain and Ireland and only 1.8-10 in the United States. These statistics show that we drink less than any of the Porte countries in Europe. It would also seem to do away with the argument that the universal drinking of beer, as in Germany, or of wine, as in France, would result in reducing the amount of drinking.

The celebration of the centenary of New South Wales began last Tuesday. This was the one hundredth anniversary of the landing of the first governor of the U. K. It was founded originally as a penal settlement, and embraced half of the continent of Australia. The colony has, however, greatly changed in character during the past thirty years and it is now not only one of the oldest British colonies, but is one of the most loyal. During the recent Soudan campaign it sent a body of eight hundred men to the front. This is said to be the first instance of any colonial troops fighting for the British flag away from their colony. Sydney, the capital, now has a population of three hundred thousand and is the best evidence of the wealth, growth and character of the colony.

Every member of the board of trade should make a special effort to be present this evening. The annual meeting must be held at 7:30 tonight, the hour of adjournment, in order to have a quorum for the election of officers. The board of trade has a large opportunity to be useful in promoting the growth of this city during the coming year, but it cannot improve this opportunity unless there is interest enough among its members to attend its meetings. A growing town in the west needs some organization which shall be the work which its common council does not do. It is the only organization which can properly express [illegible] sentiment. Railroads will be built to Colorado during the year, and there should be some organized effort to induce some of them to come to this point. The erection of new and other public improvements demands attention. The Elite dove during the past year by way of advertising shows that there is need of publishing the merits of this climate before the hordes of the east. All this work can properly be done only through a board of trade. We trust there will be a public spirited response from its members to save the need of [illegible] supporting this organization and making it [illegible] and worthy of public confidence.

Recently the Denver Republican expressed its sympathy for the [illegible] miners on the Rio Grande [illegible] thought they should [illegible] letter which [illegible] subject. [illegible] [illegible] [illegible]
